General Terms and Conditions

Disclaimer

In the event a product is listed at an incorrect price or with an incorrect specification due to typing error or human error Milestone Systems reserves the right to refuse or cancel any orders placed for that product listed at the incorrect price. Milestone Systems reserves the right to refuse or cancel any order or orders due to a pricing error, even if the order has been processed.

Validity

The prices are valid from January 04, 2023, and until further notice.
All prices are in USD.
Valid in: USD-US.
All prices are manufacturer's suggested retail price (MSRP), according to Incoterms® DDP for Milestone Husky™ NVRs and VSAs, and DAP Incoterms® for Milestone Kite™.
Price list revision date: November 29, 2022

Order Handling

All Milestone products can be ordered by distributors on the Milestone website (www.milestonesys.com) via Milestone Store, unless otherwise specified.

Region	Office Hours	Phone	Email
Americas	6 a.m. – 5 p.m. PST	+1 503 350 1100	americassalessupport@milestonesys.com
Asia Pacific (APAC)	09:00 – 17:00 GMT+8	+65 3158 9911	apacsalessupport@milestonesys.com
EMEA	08:00 – 17:00 CET	+45 88 300 684	emeasalessupport@milestonesys.com

Manual orders are subject to an order handling fee of 110 USD per order. Orders within North America and Latin America are handled free of charge. Orders placed on Milestone's website (www.milestonesys.com) via Milestone Store are handled free of charge.

Delivery

All software products, including associated documentation are delivered for free via Milestone's download site on www.milestonesys.com.

Delivery terms for the Milestone Husky NVRs and Video Surveillance Appliance (VSA) Products are DDP Incoterms® for US and CIP Incoterms® for RoW
Delivery terms for the Milestone Kite Gateways are DAP Incoterms®.

Special express and custom deliveries can be arranged subject to special charge. Additional shipment costs and VAT/taxes may apply to shipments in some geographies. Please contact Milestone's Sales Support department for further information.

Distribution Restrictions

All Partners enrolling in the new Program will get access to sell the full Portfolio, including all XProtect Products, from July 1, 2022, to Dec 31, 2022, if they have acquired the Milestone Certified Design Engineer and Milestone Certified Integration Technician certifications.

From the 1st of January 2023 the following products and services can be sold by resellers in the Authorized, Advanced and Premier tier.

• XProtect® Express
• XProtect® Express+
• XProtect® Professional
• XProtect® Professional+
• XProtect® Incident Manager
• XProtect® Access
• XProtect® Transact
• XProtect® LPR
• XProtect® Rapid REVIEW
• Milestone Care™
• Milestone Honeywell Galaxy Integration

• Milestone Husky™ IVO 150D
• Milestone Husky™ IVO 350T
• Milestone Husky™ IVO 350R
• Milestone Husky™ IVO 700R
• Milestone Husky™ IVO 1000R
• Milestone Husky™ IVO 1800R

• Milestone Kite™

From the 1st of January 2023 the following products and services can only be sold by resellers in the Advanced and Premier tier.
• XProtect® Expert
• XProtect® Corporate
• XProtect® Smart Wall
• XProtect® Retail
• XProtect® Management Server Failover
• Milestone Interconnect™

Special Distribution Restrictions Related to Milestone Husky NVRs and Surveillance Appliances Products

Distribution of the Milestone Husky products is conditioned by acceptance and signing of the Milestone Distribution Partner addendum for distributors. The Milestone Husky products may be sold by any reseller subject to the restriction above, and the geographical restrictions agreed with Milestone.
Milestone Kite may be sold by any reseller, subject to the geographical restrictions in the Sales Country list:
https://content.milestonesys.com/media/?mediaId=87B10FAE-CA57-4E21-91D82A589D4B1AF8

End user License Agreement

The deployment and use of any Milestone product is subject to the terms and conditions defined in Milestone end user license agreement (EULA) or in the Milestone Kite Terms of Service (ToS). Please refer to the EULA or the ToS for full details on the terms and conditions applicable to the specific Milestone product.
The latest version of the EULA can be found on Milestone's website: www.milestonesys.com.
The latest version of the Milestone Kite ToS can be found at: www.milestonesys.com/kite-terms-conditions.

Licensing Requirements

Milestone XProtect VMS products support IP devices. IP devices can be cameras, encoders, video services or other types of video and non-video devices that are addressed through a unique IP address in the applied installation of the Product.

For IP devices with one IP address included in the Milestone Supported Device List, one device license is needed per IP device connected to and enabled in the Product. For cameras and encoders with more than one enabled IP address the number of required device licenses is specified in the Milestone Supported Device List. Please check the supported IP devices, the required number of licenses and the exceptions in the Supported Device List at https://www.milestonesys.com/community/business-partner-tools/supported-devices.

The following exceptions apply for IP devices (with one IP address) listed on the Milestone Supported Device List:

(i) For IP devices connected to the Product through intermediate device or intermediate system, one device license per enabled video channel is required;

(ii) IP devices with multiple lens or sensors, and encoders with up to 16 connected analog cameras, count as only one IP device;

(iii) For encoders with more than 16 channels, one device license per enabled video channel is required.

Milestone always recommends using the driver specified for a given supported device on the Milestone Supported Device List. If you choose to use a universal driver, you will be required to purchase one device license per enabled video channel.

See below for an overview of licensing requirements:

Device Type	Device	License Model
Cameras (IP Devices with video Capabilities*)	Camera on Supported Device List (including multi-lens camera)	1 license per device
	Body-worn camera on Support Device List	1 license per enabled video channel
	Camera not on Supported Device List (including body-worn camera)	1 license per enabled video channel
Intermediate Devices	Encoder on Supported Device List w/ up to 16 channels (analog and HD)	1 license per device
	Encoder not on Supported Device List w/ up to 16 channels (analog and HD)	1 license per enabled video channel
	Encoder on Support Device List w/ more than 16 channels (analog and HD)	1 license per enabled video channel
	NVR/DVR	1 license per enabled video channel
Intermediate System	3rd party VMS connected via Universal Driver w/ ONVIF	1 license per enabled video channel
Other	IP devices used with a Universal Driver	1 license per enabled video channel
	Integration via Video Processing Service Driver	1 license per enabled video channel of returned video. Video out and the return of metadata is free

IP devices without video capabilities require one device license per IP address.

Please refer to the Milestone Supported Device List and Milestone EULA for full details on licensing requirements, cf. section "License, Installation and Use Conditions and Restrictions".

Milestone Kite Licensing Requirements

Milestone Kite™ VSaaS products require 1 camera channel license per enabled video channel, regardless if the device is specified in the Milestone Supported Device List or not.

Product Lifecycle

The Milestone Product Lifecycle determines the period when products can be purchased, downloaded and receive support.
For add-on purchases and trade-ins of discontinued products please reach out to your local sales support

Lifecycle for XProtect – active product versions

Milestone's Video Management Software products change status from General Availability to Limited Availability three months after a similar or substituting product has been released. In special cases where a newer version has not been released, Limited Availability will start one year from the General Availability date. Milestone guarantees a minimal availability period of four years for all its VMS products, in which the product becomes Discontinued after three years from its General Availability date and Terminated after four years. Milestone reserves the right to prolong the lifespan of its products at its sole discretion.

The stages are as follows:

• General availability
• Limited availability
• Discontinued
• Terminated

Lifecycle for XProtect – retiring products

Milestone's Video Management Software products follow a different schedule compared to active product versions after it is announced to be retired. The product will follow the changed phases after the last version of the product has been released.

The stages are as follows:

• General availability
• Maintenance mode
• Limited availability
• Terminated

Lifecycle for Husky NVR and Video Surveillance Appliance products

Milestone Husky products have a separate product lifecycle compared to the software offering.

The stages are as follows:

• General availability
• Limited availability
• Sustaining
• Discontinued
• Terminated

Lifecycle for Kite VSaaS

Milestone Kite products and services follow the same principle lifecycle stages as the other VMS and hardware products that Milestone offers.
However, being a cloud service, Milestone Kite is constantly updated and does not follow the same release cadence as XProtect.

For additional information and details on how each stage impacts the product in question as well as a list of discontinued and terminated products please visit our website:
https://www.milestonesys.com/support/resources/product-lifecycle/

Milestone Care

Milestone Care is a complete software maintenance and technical support program that takes care of your product throughout its lifetime. It is our commitment to you and your business to make sure you can take full advantage of your product and get the most out of your investment. Designed to give you peace of mind, the Care program has two packages. Whether you need recurring software updates or 24/7 access to Milestone Support – there is a package to suit your needs.

Please note that there are slight differences in the support and service coverage of Milestone Care Plus and Care Premium and how the services are purchased between the XProtect VMS software line and the Husky NVR M series product lines.
Please note that Milestone Care packages cannot be purchased for Milestone Kite, as the service is continually updated.

Milestone Care Plus

On a recurring cadence, the XProtect® VMS products are updated to become better, safer, and more powerful. Designed as a software maintenance service, Milestone Care Plus, assures customers have access to the product updates instantly to help protect their initial investment and ensure the solidity of their systems. Here is what is included in Care Plus:
• Recurring product updates
• Full return on your investment

Milestone Care Plus Service Coverage per Product

Milestone Product	Trade-in value of Milestone software	Access to upgrades to more advanced software	Updates to the latest version of the same software
Milestone XProtect VMS Products			
XProtect Express+	100%	Yes, via trade-in order	Instant update via Customer Dashboard, or via trade-in order
XProtect Professional+			
XProtect Expert			
XProtect Corporate		No	
XProtect Add-on Products			
All XProtect add-on Products	Covered by the Milestone Care Plus service to the same extent as the underlying VMS/NVR (if applicable) product		
Milestone Husky NVR and Video Surveillance Appliance Products			
Husky X-series	There are no Care Plus options available for the Husky products. Instead Care Plus can be purchased for the specific XProtect VMS used on the Husky products.		
Husky IVO series			

Milestone Care Plus is purchased in slightly different ways dependent on the type of Milestone product. The service coverage can either be purchased in conjunction with the actual product purchase, or made afterwards as a service opt-in purchase, according to the table below:

Milestone Product	Conditions upon initial product purchase	Available coverage periods at initial purchase	Coverage at system expansion (additional devices)	Opt-in option after product purchase
Milestone XProtect VMS Products				
XProtect Express+	Optional	1, 2, 3 and 5 years plans with progressive pricing.	Additional coverage must be purchased for devices added to the product. Extensions can be made by following existing expiration or by calculating a new expiration based on additional Care Plus purchase, and cannot be extended past 5 years.	Possibility to (re-) join Care Plus service via three-year opt-in option
XProtect Professional+				
XProtect Expert	1 year mandatory coverage			
XProtect Corporate				
XProtect Add-on Products				
All XProtect add-on Products	Covered by the Milestone Care Plus service of the underlying VMS/NVR (if applicable) product without separate charge			
Milestone Husky NVR and Video Surveillance Appliance Products				
Husky X-Series	There are no Care Plus options available for the Husky products. Instead Care Plus can be purchased for the specific XProtect VMS used on the Husky products.			
Husky IVO series				

Milestone Care Premium

When support cannot wait for Monday, Milestone Care Premium provides customers with business-critical installations direct, personalized, and prioritized access to the experts in the global Milestone technical support team round-the-clock. Here is what is included in Care Premium:

- 24/7 access to the Milestone Support Team.
- Prioritized support to ensure critical issues are dealt with quickly.
- Support in selected languages based on availability.

Milestone Product	Purchase periods	Pricing	Coverage at system expansion (additional devices)	Opt-in option after product purchase
Milestone XProtect VMS Products				
XProtect Professional+	1, 2, 3 and 5 years plans. Monthly coverage for alignment to specific date.	Percentage of total system, with progressive priced multi-year plans	Additional coverage must be purchased for devices added to the product. Extensions can be made by following the existing expiration or by calculating new expiration based on additional Care Premium purchase	Available at any time, no opt-in fee
XProtect Expert				
XProtect Corporate				
XProtect Add-on Products				
All XProtect add-on Products	Covered by the Milestone Care Premium service of the underlying VMS/NVR (if applicable) product without separate charge			
Milestone Husky NVR and Video Surveillance Appliance Products				
Husky X-Series	There are no Care Premium options available for the Husky products. Instead Care Premium can be purchased for the specific XProtect VMS used on the Husky products.			
Husky IVO series				

How to purchase Milestone Care

To secure Care Plus coverage the service shall be purchased with the XProtect VMS product, or maximum 30 days after the original product purchase. XProtect VMS customers who want to join the Care Plus service at a later stage, or re-join after a period without coverage can do so using the three years opt-in option. There is also a grace period of 30 days from the expiration of an existing Milestone Care Plus coverage, in which the end-customer can purchase Milestone Care Plus under normal terms.

Milestone Care Premium can be purchased at any time. However, Care Plus must be purchased as a prerequisite and the Care Premium expiration date cannot exceed that of the Care Plus. End customers can purchase Care Premium on any single license, just as they can Care Plus.

The minimum coverage period for both Milestone Care Plus and Care Premium is one year. Milestone Care can however also be purchased in increments of months, which is beneficial for installations that want to have their Care agreement(s) expire on a certain month (e.g. in alignment with a budgeting period). Milestone Care will always fall on the last day of the calculated month.

(Please note that for Milestone NVR products, Milestone Care coverage period is maximum 5 years from the date of purchase).

How to purchase both Milestone Care Plus and Milestone Care Premium coverage in connection with system expansions of an XProtect VMS product

The following section is only applicable to XProtect VMS software products.
Milestone Care is linked to an individual system's base license. Milestone Care for system expansions must be aligned with or extend the Milestone Care of the existing installation. Please note that Milestone Care can never be shortened and will always expire on the last day of the calculated month. When expanding an existing XProtect system with additional cameras, the end-customer can maintain full Milestone Care coverage in two ways:

1. Keep the original Milestone Care coverage period
An end-customer can maintain an existing Milestone Care renewal date when purchasing additional cameras, by purchasing Milestone Care coverage for the additional device licenses on a monthly basis (the required amount is automatically calculated in Milestone Store). This is useful if the main Milestone Care renewal date is aligned with the end customer's calendar or fiscal year.

2. Extend the original Milestone Care coverage period
The end-customer can purchase one or more years of Milestone Care coverage when extending an existing system. This Milestone Care service coverage will be used to calculate a new and prolonged Milestone Care coverage period for the total system (still always expiring on the last day of the calculated month). The new Milestone Care coverage period is calculated based on the value of the remaining main Milestone Care coverage period and the size and nature of the system expansion.

If an end-customer does not want to purchase Milestone Care coverage for the system expansion after possible mandatory initial Milestone Care coverage period, the main Milestone Care will be terminated from the purchase date of the system expansion. Any remaining value of the main Milestone Care coverage period is not refunded. For details on how to ensure continuous Milestone Care coverage in conjunction with system expansions, please contact Milestone Sales Support.

Milestone Care Coverage in connection with upgrades

Milestone Care coverage is linked to a specific Milestone product. This means that end-customers upgrading to a more advanced product, for example when upgrading from XProtect Professional to XProtect Expert must also trade-in their Milestone Care in order to maintain coverage. To enable easy upgrades between different XProtect products, Milestone credits the price of the remaining unused Milestone Care coverage period to the price of the new Milestone Care. It is required to buy at least the same amount of Milestone Care as on the product being traded-in. However, if Milestone Care traded-in is less than one year, a minimum of one year is required on the new product.

A refund from trading-in software products cannot be converted to a cash payout, voucher etc. A negative value will instead be set to 0.00 or can be used for purchase of other Milestone products within the same order.

Trade-in

Milestone currently offers a unique trade-in policy for our software products, which allows customers to protect investments made in Milestone software. The trade-in policy offers:

• Software update to a newer version of the same product
• Software upgrade to a more advanced product, for example upgrade from XProtect Expert to XProtect Corporate

The present Milestone trade-in policy grants the customer a refund on the old product to be updated/upgraded, where the amount credited is dependent on the Milestone Care service level

• Customers with active Milestone Care Plus are entitled to **100 percent** refund of the current recommended retail price when trading-in licenses for their existing XProtect products.
• Customers without Milestone Care Plus coverage are entitled to **30 percent** refund of the current recommended retail price of their existing product.

A refund from trading in software products cannot be converted to a cash payout, voucher etc., but will instead have to be used for purchase of other Milestone products.

Customers with Milestone Care Plus can instantly update their software to the latest version via the Customer Dashboard (also known as CUDA). Customers who want to upgrade to a more advanced product, or customers without Milestone Care Plus coverage who want to update their present Milestone product need to do that as an order transaction via Milestone Store.

The trade-in options vary slightly between the different Milestone products. For details, please refer to the trade-in options for the specific Milestone product in this price list.
Please note that the terms outlined above reflect our current trade-in policy, which may be subject to change.

Milestone Kite subscription change policy

Customers using the Milestone Kite service can make changes to their camera channels in their Kite subscription at any time during an active service term. When making such changes the customer will purchase the new desired types of camera channel licenses for the remaining period of the active term (rounded down to the nearest full month), while Milestone will credit the current MSRP value of the old camera channel licenses for the corresponding period.

Possible remaining credit cannot be converted to a cash payout, voucher, etc., nor can it be used for purchasing other Milestone products and services, outside of the Milestone Kite offering.

Any change will be in effect once the purchase order has been confirmed. The new camera channel SKUs will be the bases for the renewal of the service term.

Trademarks

XProtect VMS Products

XProtect Express+

XProtect Express+ is IP video management software (VMS) for smaller, single-location companies. It is built with innovative technology designed to save you money and boost the overall performance of your hardware. With full alarm management capabilities and multi-layered map XProtect Express+ is suited for business with light live monitoring needs. It can manage up to 48 surveillance cameras and supports simple ways of incorporating video into existing business operations, such as linking access control to live video feeds. XProtect Express+ is the perfect match for retail shops, parking lots or office buildings with moderate security needs.

NOTES

1) XProtect Express+ Base License (XPEXPLUSBL) allows the XProtect Express+ server software to be installed on a single computer per Software License Code. The client software can be installed on unlimited number of workstations and at different locations. To enable AAC Audio, two AAC audio licenses are included in the Base License.

2) Please refer to the Licensing Requirements on page 5 for further details.

3) To enable AAC audio, one AAC audio license per concurrent XProtect Smart Client using AAC audio is required. Two AAC audio licenses are included in the Base License, if you need additional AAC audio licenses, they are available in packs of 50 licenses.

4) Can be used to trade-in to corresponding product license for XProtect Professional+, XProtect Expert or XProtect Corporate.

5) Can be used to trade-in to newer versions of the same product or corresponding product license for XProtect Professional+, XProtect Expert or XProtect Corporate.

XProtect Professional+

XProtect Professional+ is IP video management software (VMS) designed for mid-sized businesses. It is built with innovative technology designed to save you money and boost the overall performance of your hardware. With the ability for operators to centrally manage all servers, cameras and users the software is ideal for installations spread across multiple sites. Multi-layered maps and full alarm management capabilities give operators a complete overview of their security installation to quickly respond to incidents and provide accurate information to first responders. XProtect Professional+ supports camera-based Edge Storage to help minimize the loss of video and is the perfect choice for institutions such as schools, museums, hospitals and production plants.

XProtect Expert

XProtect Expert is IP video management software (VMS) for mid-sized and large-scale installations. It is built with innovative technology designed to ensure video integrity and boost the overall performance of your hardware. In addition to camera-based Edge Storage support, XProtect Expert offers reliable, uninterrupted video recording and access through failover recording servers in the event of server failure. The software includes central management of an unrestricted number of servers, cameras and users making it the perfect choice for companies deployed across multiple locations. With multi-layered maps, alarm handling and optional integrated video wall support, XProtect Expert is also ideal for installations with active live monitoring such as warehouses and stadiums.

N.B. Milestone Care Plus is mandatory for the whole XProtect Expert installation (applicable to both XPETBL and XPETDL licenses) during the first year after the initial purchase of the Base License (XPETBL).

TXPETDL	Trade-in XProtect Expert DL w/o C-Plus	89.00	6

NOTES

1)   XProtect Expert Base License (XPETBL) allows the XProtect Expert server software to be installed on unrestricted Management Server (or one server cluster) and an unlimited number or Recording Servers per Software License Code. The client software can be installed on an unlimited number of workstations and at different locations. To enable AAC Audio, two AAC audio licenses are included in the Base License.

2)   Please refer to the Licensing Requirements on page 5 for further details.

3)   To enable AAC audio, one AAC audio license per concurrent XProtect Smart Client using AAC audio is required. Two AAC audio licenses are included in the Base License, if you need additional AAC audio licenses, they are available in packs of 50 licenses.

4)   Care Plus is mandatory for the whole XProtect Expert installation (applicable to both XPETBL and XPETDL licenses) for minimum one year after the initial purchase of the Base License (XPETBL).

5)   Can be used to trade-in to corresponding product license for XProtect Corporate.

6)   Can be used to trade-in to newer versions of the same product, or to corresponding product license for XProtect Corporate.

XProtect Corporate

XProtect Corporate is IP video management software (VMS) designed for large-scale and high-security installations. It is built with innovative technology designed to ensure end-to-end protection of video integrity and boost the overall performance of your hardware. In addition to central management of all servers, cameras and users in a multi-site set-up, XProtect Corporate includes an integrated video wall for operators demanding supreme situational awareness of any event. The software supports failover recording servers making it the perfect choice for mission-critical installations that require continued access to live and uninterrupted video recordings in the event of a server failure. Running on the industry's best performing recording engine with a recording rate of minimum 3.1 Gbit/s, XProtect Corporate is ideal for installations with 24/7 operation requirements, such as airports and casinos.

N.B. Milestone Care Plus is mandatory for the whole XProtect Corporate installation (applicable to both XPCOBT and XPCODL licenses) during the first year after the initial purchase of the Base License (XPCOBT).

NOTES

1) XProtect Corporate Base License (XPCOBT) allows the XProtect Corporate server software to be installed on an unrestricted number of servers per Software License Code. The client software can be installed on an unlimited number of workstations and at different locations. When purchased for 2014 or newer versions of XProtect Corporate, the base license includes one XProtect Smart Wall Base License (XPSWBL), and versions 2022 R2 and newer include one XProtect Incident Manager Base License (XPIMBL). To enable AAC Audio, two AAC audio licenses are included in the Base License.

2) Please refer to the Licensing Requirements on page 5 for further details.

3) One XProtect Corporate Milestone Interconnect Camera License (XPCOMIDL) is required per remote camera enabled in the central XProtect Corporate system. NB. An interconnected remote system without any enabled cameras will require one Milestone Interconnect Camera License.

4) To enable AAC audio, one AAC audio license per concurrent XProtect Smart Client using AAC audio is required. Two AAC audio licenses are included in the Base License, if you need additional AAC audio licenses, they are available in packs of 50 licenses.

5) Care Plus is mandatory for the whole XProtect Corporate installation (applicable to both XPCOBT and XPCODL licenses) for minimum one year after the initial purchase of the Base License (XPCOBT). Care Plus coverage purchased for the XProtect Corporate Base License (XPCOBT) also covers the included XProtect Smart Wall (2014 or newer versions of XProtect Corporate) and XProtect Incident Manager (2022 R2 and newer versions of XProtect Corporate).

6) Can be used to Trade-in to newer versions of the same product.

LICENSING OF MILESTONE INTERCONNECT™

Milestone Interconnect allows a XProtect Corporate VMS system to access cameras residing in other video management systems. These systems can be other Milestone XProtect VMS systems (including Milestone Kite) or Arcules VSaaS cloud service. For a complete list of compatible products, please refer to Milestone website https://www.milestonesys.com/solutions/hardware-and-add-ons/milestone-addons/interconnect/milestone-interconnect-compatibility/.

One Milestone Interconnect Device License is required per camera in an interconnected remote site that is enabled in the central XProtect Corporate system. It is possible to interconnect a subset of the cameras in an interconnected system. Please note that an interconnected remote system without any enabled cameras will require one Milestone Interconnect Device License.

Interconnected remote systems are licensed independently via the normal licensing structure applicable for the particular product. Hence, interconnected remote systems do not require additional licenses when interconnected to a central XProtect Corporate system. This also includes products purchased before Milestone Interconnect was introduced.

XProtect Essential+

XProtect Essential+ is a full-featured version of Milestone's market-leading video management software (VMS) at no cost. With support for eight cameras, XProtect Essential+ is the perfect match for the smaller business owner who wants video surveillance to protect employees and assets. With the ability to integrate with other systems and applications, users can explore the Milestone community and the power of the open platform. If you want access to your system from anywhere, XProtect Essential+ provides it all. Whether you are on the go, on the job or at home, your system is only a click away. Why start anywhere else?

Free download address: https://www.milestonesys.com/

For information regarding XProtect Essential 2016 R2 or older version, please refer to the section Limited Available Products.

Lifecycle stage: General availability

Current version: 2022 R3

XProtect Clients

XProtect Smart Client

For Milestone XProtect IP video management software, the XProtect Smart Client is a powerful, easy-to-use client application for the daily operations of security installations. A streamlined interface helps improve usability, making it easy to monitor installations of all sizes, manage security incidents and access and export live and recorded video.

Continually setting the standard for usability in IP VMS products, the XProtect Smart Client provides an extremely efficient working environment that can be optimized for different tasks and operator requirements. Advanced investigation tools combined with the easy-to-navigate video timeline enable fast and accurate examination of incidents. Export options, including digital signature, enable you to more efficiently and securely export video evidence.

Lifecycle stage: General availability
Current version: 2022 R3

LICENSES

XProtect Smart Client can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units.

XProtect Web Client

Designed for XProtect video management software (VMS), Milestone Husky™ NVRs and Milestone Husky™ Video Surveillance Appliance Products, XProtect® Web Client is an intuitive web-based interface to view, play back and share video. It provides instant access to all essential functions and it is quick to learn and simple to operate for users of all skill levels. Available in 31 languages, XProtect Web Client provides remote access to the surveillance system from all common browsers and computer operating systems. XProtect Web Client runs on any Internet-enabled computer or device without installation, including optional browser plug-ins. It offers system scalability and an optimized user experience in systems with many users.

Lifecycle stage: General availability
Current version: 2022 R3

LICENSES

XProtect Web Client can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units.

XProtect Mobile

XProtect Mobile is a free application for Apple® and Android™ devices that allows users to view video instantly using smartphones or tablets. It operates seamlessly with all XProtect® video management software (VMS), Milestone Husky™ NVRs, Milestone Husky™ Video Surveillance Appliance Products and the Milestone Arcus™ platform via Wi-Fi, 3G or 4G connections. With XProtect Mobile users can view, play back and export video, manage access control and push live video from the device's camera, allowing users to see what's important regardless of their location. XProtect Mobile is available in 31 different languages, allowing users to work with the application in their native language.

Lifecycle stage: General availability
Current version: 2022 R3

LICENSES

XProtect Mobile can be used free of charge with all Milestone XProtect video management products and Milestone Husky NVR units.

However, to use Video Push, a device license is required for each XProtect Mobile device from which users shall be able to push video. The price of the device license is determined by the specific Milestone product being used.

XProtect Add-on Products, Plug-ins and Components

XProtect Smart Wall

XProtect Smart Wall is a video wall solution that provides visual coordination and decision support to operators working in response centers and control rooms. The tight integration with the XProtect® Smart Client makes XProtect Smart Wall an efficient collaborative canvas for gaining situational overview, assessing incidents and coordinating response activities. It supports any number or combination of monitors and runs on standard servers and displays, enabling flexible and cost-efficient installations.

Lifecycle stage: General availability
Available for: Advanced and Premier resellers
Current version: 2022 R3

NOTES

1) XProtect Smart Wall is an optional add-on license for XProtect Corporate 3.0 to 2013 R2, and XProtect Expert 2014 and newer versions of XProtect Expert. XProtect Smart Wall is included in XProtect Corporate Base License (XPCOBL) as of version 2014. The XPSWBL is linked to a specific XProtect Corporate or XProtect Expert system's Base License and gives the right to run unlimited XProtect Smart Walls, displays and camera streams under that Base License.

XProtect Incident Manager

XProtect Incident Manager is a solution that enables organizations to document incidents and combine them with sequenced evidence (video and audio). Operations managers can manage incidents directly in their video management software and connect video footage with incidents as they unfold. XProtect Incident Manager allows to document all incident details in a single report that can be printed or converted to a PDF.

NOTES

1) XProtect Incident Manager is an optional add-on license for XProtect VMS. XProtect Incident Manager is included in XProtect Corporate Base License (XPCOBL) as of version 2022 R2.

XProtect Access

Milestone XProtect Access is an XProtect Add-on product that video enables physical security through integration of access control and intrusion systems. XProtect Access provides operators unified access to all primary and most common functions in the integrated access control system as an integral part of XProtect Smart Client. The video enablement of access control systems empowers operators to effectively monitor access events, manually assist passages and conduct investigations on specific access points or cardholders, while enriching the value of reports and evidence material.

Extending the capabilities of the Milestone Integration Platform, the unique plug-in architecture makes integration of physical security systems easy, while reducing cost of installation at the customer site. With its decoupling of the video system and the access control system, XProtect Access provides customers with the freedom of selecting the system of their choice to match the specific needs and budget.

XProtect Access is an XProtect Add-on product, compatible with all XProtect VMS products, except XProtect Essential+.

XProtect LPR

XProtect LPR is license plate recognition (LPR) software that detects license plate information from any vehicle around the world and links the license plate number with video. It is a simple way to control vehicle access, for example, for entrance/exit barriers, parking spaces and toll gates. XProtect LPR can send a notification when a certain license plate is detected, enabling users to quickly take action. Users can also define positive/negative lists that will initiate certain actions, such as opening a gate, which increases work productivity and can help automate tasks. XProtect LPR is an add-on product that is seamlessly configured and managed through the supported XProtect video management software (VMS) products.

XProtect LPR is compatible with all XProtect VMS products, except XProtect Essential+.

Please note:
From 2019 R2, XProtect LPR for XProtect Express and Professional will exist in a separate installer and will not be updated to include new features and/or new country modules. There will be no further development on the detached XProtect LPR for XProtect Express and Professional.

NOTES

1) XProtect LPR Base License (XPLPRBL) allows the XProtect LPR server software to be installed on unlimited number of servers per Software License Code. Includes five XProtect LPR Country Modules. Additional libraries required must be purchased in excess, using the XProtect LPR Country Modules (XPLPRLL) license.

2) License per camera running LPR analytics.

3) Additional country modules (beyond the 5 included modules) for XProtect LPR covering a specific region, state or country. The XPLPRLL license allows the LPR country module to be deployed on an unlimited number of XProtect LPR servers in a given installation. Please contact Milestone web (https://www.milestonesys.com/solutions/hardware-and-add-ons/milestone-addons/lpr/) for details on available LPR country modules.

XProtect Rapid REVIEW

XProtect Rapid REVIEW is an easy to use, powerful software solution that accelerates investigations – allowing security operators and investigators to find what they are looking for, fast. Designed to enable rapid review, search and analysis of video recordings, this means you no longer need to spend countless hours behind a screen watching endless footage to locate a specific incident. Once installed, XProtect Rapid REVIEW is seamlessly integrated into the XProtect Smart Client, XProtect Rapid REVIEW lets you review hours of video in minutes, and pinpoint people, objects and behaviors of interest immediately. You can then turn that information into evidence, insights and action.

XProtect Rapid REVIEW can be used with an unlimited number of device licenses. However, if the installation requires more than 200 XProtect Rapid REVIEW device licenses an approval is needed from Milestone to ensure the product fits the needs (1).

XProtect Rapid REVIEW is compatible with the following XProtect VMS products: XProtect Corporate, Expert, Professional+ and Express+. For a recommendation on minimum system requirements, please visit https://www.milestonesys.com/support/tools-and-references/system-requirements/.

Please note:
XProtect Rapid REVIEW is only compatible with versions of XProtect 2019R3 and above.

Lifecycle stage: General availability
Available for: Authorized, Advanced and Premier resellers, with the recommendation to complete the related eLearning
Current version: 2022 R3

LICENSES		MSRP	
SKU ID	Name	USD	Note
XPRRDL	XProtect Rapid REVIEW Device License	180.00	1,2

MILESTONE SERVICES

All XProtect Rapid REVIEW device licenses purchased before R1 2023 (March 2023) include the right to update to new versions of the product for 12 months after purchase.

TRADE-IN CREDIT		MSRP	
SKU ID	Name	USD	Note
UXPRRDL	Trade-in XProtect Rapid REVIEW Device License	180.00	3

NOTES

1) If the installation requires more than 200 XProtect Rapid REVIEW device licenses, please reach out to Milestone for approval.

2) Milestone recommends purchasing the same amount of XProtect Rapid REVIEW device licenses as Milestone XProtect device licenses on the underlying VMS product. However, to ensure complete camera coverage for comprehensive forensic video review you may need to purchase additional XProtect Rapid REVIEW device licenses to cover all enabled video channels in XProtect.

3) Trade-in option can only be used to update to newer versions of the product.

XProtect Management Server Failover

XProtect Management Server Failover is designed to ensure that your VMS never skips a beat. It provides XProtect users with an always-hot high availability cluster with real-time replication and failover. It is a complete solution that protects the Management Server (and the Event, Log, and SQL servers when installed on the same physical server) from hardware, software, and human error server failures. Its efficient design and simple configuration, give you the ability to switch to a reliable backup Management Server seamlessly and automatically when the primary one fails. It provides synchronous real-time file replication, automatic application failover, and automatic failback after a server failure, all in one solution.

Each Server License purchased includes a license for both the primary and secondary management server, We only support 1 pair of hosts per site. The host names for servers must be provided at the time of purchase (1).

XProtect Management Server Failover is compatible with the following XProtect VMS products: XProtect Corporate and Expert.

Please note:
XProtect Management Server Failover is only compatible with versions 2022R1 and higher for the above-mentioned XProtect products.

Lifecycle stage: General availability
Available for: Advanced and Premier resellers
Current version: 2022 R3

LICENSES		MSRP	
SKU ID	Name	USD	Note

SKU ID	Name	USD	Note
UXPMSFSL	Trade-in XProtect Management Server Failover Server License	7,650.00	2

NOTES
1) The price for the XProtect Management Server Failover Server Licenses includes a license for both the primary and secondary management servers.
2) Trade-in option can only be used to update to newer versions of the product.

XProtect Screen Recorder

The XProtect Screen Recorder is a function that enables Milestone XProtect IP video management software to inconspicuously capture screen recordings of any Windows-based PC or point-of-sale terminal. Captured screen recordings are managed in the same way as video (camera) data in the XProtect VMS. This feature helps manage loss and fraud by monitoring the use of business systems and documenting customer transactions. XProtect Screen Recorder improves efficiency by allowing you to audit staff activities and conduct training and education. The XProtect Screen Recorder works seamlessly with all Milestone XProtect VMS products.

Lifecycle stage: General availability
Current version: 2022 R3

LICENSES

Although the XProtect Screen Recorder is not subject to licensing as such, one (1) device license in the Milestone XProtect video management product or Milestone Husky NVR unit is needed per monitored PC or POS equipment.

XProtect Retail

XProtect Retail is an investigation tool for performing advanced transaction data analysis. It helps retailers optimize store operations and increase profit by identifying fraud and reducing shrinkage. Based on transaction data from point-of-sale (POS) or automated teller machines (ATMs) typically gathered in Enterprise Resource Planning (ERP) systems, XProtect Retail links data with corresponding video from relevant cameras. Advanced search options, full video documentation and a set of pre-defined performance indicators make it easy to maintain a complete overview of store operations, cash registers/tills and employees so you can protect your entire business and customers.

The XProtect Retail solution offers an Application Programming Interface (API) which enables the customer to populate the Milestone Database with transactional data.

XProtect Retail is compatible with all XProtect VMS products, except XProtect Essential+.

Standard Purchase of an XProtect Retail solution requires purchase of a mandatory XProtect Retail Integration Service (MSCXPR) that includes:
• Assistance in scoping and defining the retail solution
• Assistance during the development phase of the integration

Customized
Milestone also offers customized development of integration into the Retail solution on a fixed price basis. For customers requiring this, and for customers with more complex retail solutions, additional consultancy assistance can be purchased on a daily basis (MSCXPRD) to cover:
• Analysis of customer specific systems to be integrated with the retail solution
• Implementation of the retail solution (data and function integration)
• Optimization of the data base performance
• Test and document of the retail solution
• Assistance during the deployment of the solution (camera setup, mapping of tills in the system, etc.)

XProtect Retail must be ordered manually via the Milestone Sales Support department and is not available in Milestone Store. Purchase of a Retail solution is subject to closure of a separate development contract.
Please refer to page 3 for contact details.
Available for: Advanced and Premier resellers

LICENSES		MSRP	
SKU ID	Name	USD	Note

XPRCL	XProtect Retail Connection License	300.00	2

CONSULTANCY SERVICES		MSRP	
SKU ID	Name	USD	Note
MSCXPR	Mandatory XProtect Retail Integration Service	10,275.00	3
MSCXPRD	Additional XProtect Retail Integration Service, per day	2,065.00	4

MILESTONE CARE PLUS OPTIONS
There are no XProtect Retail specific Milestone Care Plus options available. However, it is mandatory to purchase Milestone Care Plus coverage for the underlying XProtect platform that is used together with the XProtect Retail solution.

TRADE-IN CREDIT
Trade-in of XProtect Retail licenses is not available.

NOTES

1)   Gives the right to deploy and use the XProtect Retail solution on unlimited number of servers and sites for the given installation (legal entity).

2)   One XProtect Retail Connection License (XPRCL) is required for each device, such as POS, till, scanner, etc., that is connected to the XProtect Retail solution.

3)   Includes one week of XProtect Retail Integration Assistance for integration of customer specific databases and business systems. Additional integration work may be required dependent on the nature and complexity of the integration. Service is mandatory with any purchase of XProtect Retail. Travel time is charged at a reduced rate and travel costs are covered by the customer, using the Travel Expenses Voucher (MSTXP).

4)   Daily rate for additional Retail specific integration services. Travel time is charged at a reduced rate and travel costs are covered by the customer, using the Travel Expenses Voucher (MSTXP).

Milestone Husky IVO Video Surveillance Appliances

Power to Perform.
Introducing the new Milestone Husky™ IVO.

The new Milestone Husky™ IVO series offers a range of appliances to cover almost all solution needs. Whether it's for simple installation, maximum uptime, or critical data storage, there's a Husky for you.

This new scalable portfolio is designed to fit numerous XProtect use cases to give you the most from your installation. From the small corner store to the massive football stadium, Husky's range works seamlessly with XProtect to provide the performance and reliability needed to get the most out of your surveillance solution.

Key benefits:
• Optimized for XProtect so that you can achieve more with your video solution
• Easy to install, use and maintain – pre-loaded with XProtect
• Single point of support for both hardware and the VMS
• Prepared for evolving needs

The portfolio contains 6 products, each with multiple storage options available. All appliances in this series comes with a standard, 5-years warranty.
For more information about the new Milestone Husky™ portfolio, along with the services available, check our webpage:
https://milestone-new-husky-series.webflow.io/

Use the Milestone Husky Calculator to select the optimal Husky solution with confidence

HUSKY AVAILABILITY

Please check for availability of Husky IVO in your country on our website:
https://content.milestonesys.com/collections/view/D1B3983B-9265-4C47-B656E817B4D0FA9D/?mediaId=C689EDE4-D660-4452-B6328C30D95A149E

MILESTONE CARE OPTIONS
There are no Care Plus or Care Premium options available for the Husky IVO Video Surveillance Appliance Products. Instead Care services can be purchased for the specific XProtect VMS used on the Husky IVO Video Surveillance Appliance Products.

TRADE-IN CREDIT
Trade-in of Milestone Husky products is not available.

SALES RETURN
Please note that, according to Milestone policy, there shall be **no sales returns** of Husky IVO products after placing the orders in Milestone Store. For more information, please check your commercial agreement with Milestone.

Milestone Husky IVO 150D
Reliable and simple setup

The Husky IVO 150 Desktop is the most simple, easy-to-use video surveillance appliance for XProtect®. Husky 150D is ideal for smaller sites with installations of only a few cameras and a smaller scale need to view real-time footage locally.

Lifecycle stage: General availability
Available for: Authorized, Advanced and Premier resellers

MILESTONE CARE OPTIONS

There are no Milestone Care options available for the Milestone Honeywell Galaxy integration solution.

TRADE-IN CREDIT

Trade-in of the Milestone Honeywell Galaxy integration solution is not available.

NOTES

1)   Base License for one Event Server.
2)   License for additional panel on the same Event Server.

Milestone Cloud Solutions

Milestone Kite™

Offering all essential video surveillance and video analytics functions in one concise service package, Milestone Kite is designed for small to medium size businesses and organizations, which need a video surveillance solution that is reliable, easy to maintain, and updated automatically.

The simple installation process and maintenance-free operations make Milestone Kite the ideal solution for distributed-multisite organizations that want to centrally operate and manage their geographically dispersed sites as one unified system.

Milestone Kite is currently not available in Milestone Store. Please contact Milestone Sales Support.

Milestone Kite is purchased for a one year service term (12 months) only. Payment for the service is made up-front.
All channel subscriptions require at least one Gateway.
Add-on services only work with at least one Gateway and one subscription.
Customers can integrate their Kite installations with their existing XProtect Corporate (XPCOBT) system by using an Interconnect license (XPCOMIDL). Interconnect licenses are available for free to Kite customers.
For more details on Interconnect usage and capabilities, please see page 17 of the pricelist.

Available for: Authorized, Advanced and Premier resellers
For more details on regional availability, please consult the Sales Country list at:
https://content.milestonesys.com/media/?mediaId=87B10FAE-CA57-4E21-91D82A589D4B1AF8

4) Cloud storage camera channels only work with cloud storage gateways (KT-CGW-S02-2TB).
5) Any resolution, FPS and retention time.
6) Edge storage camera channels only work with edge storage gateways (KT-EGW-S08-8TB).
7) Continuous Recording and Cloud analytics are only available for cameras with cloud storage (MKTCC-xxxx).
8) Gateways require a one-time payment and do not follow the subscription rules of the Kite services. Gateway purchases include a 5-year warranty.

Milestone Services

As a complements to Milestone's video surveillance products, Milestone offers a portfolio of services designed to maximize the value of Milestone products for partners and customers. The service portfolio includes a wide range of customization and post-sales services:

- **Custom Development** – a customization and integration service enabling Milestone ecosystem partners to meet specific customer needs by fully exploring the use of Milestone's open platform technology
- **Milestone Professional Services** - a portfolio of system deployment and optimization services designed to unlock the full potential of Milestone installations while optimizing the system performance for a problem-free and stable operation

Custom Development

Milestone's XProtect open platform software allows for integration with the widest choice of third-party applications and business systems via the Milestone Integration Platform (MIP). The open architecture of XProtect provides endless possibilities to create custom, powerful video management solutions.

The Milestone Custom Development service offers assistance in developing, installing and supporting tailor-made integrated solutions. We also deliver services and software that enable our partners to offer complete solutions that match customer needs for IP-based video surveillance systems. Our experienced consultants have broad experience integrating 3rd-party applications and business systems into tailor-made XProtect software including:
- Access control
- Alarm systems
- Video analytics
- Point-of-sale (POS) systems
- Enterprise resource planning (ERP) databases

Each integrated solution is managed by a dedicated project leader and developed by one or more senior developers to ensure functionality and quality. Solutions are also tested in-house by the Milestone Test Department. All consultancy department staff members are senior engineers with a bachelor's or master's degree and many years' experience in the industry, ensuring a high-quality solution.

Not only can we provide you with expertise, the consultancy department also offers in-depth training of the MIP Software Development Kit (SDK), the comprehensive tool used to create applications for XProtect. The hands-on training is beneficial for experienced developers who want to create their own integration for XProtect software.

For more information about our consultancy services, contact us at Consultancy@milestonesys.com.
Custom Development services cannot be ordered via Milestone Store.

NOTES

2)	Travel time is charged at a reduced rate and travel costs are covered by the customer, using the Travel Expenses Voucher (MSTXP).	

Professional Services

Milestone Professional Services is a portfolio of system deployment and optimization services designed to unlock the full potential of Milestone installations while optimizing the system performance for a problem-free and stable operation.
Note: Milestone Professional Services are subject to availability, can be provided in-house or outsourced, and their price may vary accordingly.

Quick Start-Up Services

The Quick-start Up service is a remote installation and configuration service for new Milestone installations. Drawing on Milestone's broad system experience, the service ensures that the implementation is in according to best practices and that the system is tuned to ensure optimal performance for the specific customer application.
Minimum service engagement: 4 hours

MSQSH	Quick Start-up Service, per hour	Call for Quote

System Start-Up Services

The System Start-Up service is an onsite installation and configuration services for new Milestone installations. Drawing on Milestones broad system experience the service ensures that the implementation is executed according to best practices and that the system is tuning for optimal performance for the specific customer application. During the on-site service execution, the Milestone Engineer work together with the Milestone Partner and the end-customer, which not only ensures that everything is installed and configured properly, but also that competence about the installation is transferred.

Minimum service engagement: 1 day

MSSSH	System Start-up Service, per hour	Call for Quote
MSSSD	System Start-up Service, daily rate	Call for Quote

Upgrade Assistance Services

The Upgrade Assistance service is designed to assist end-customers who want to upgrade their existing Milestone XProtect software to the newest version, and gain access to the latest functions and capabilities. The service is relevant to end-customers that subscribe to the Milestone Care Plus service (formerly Software Upgrade Plan – SUP).

Minimum service engagement: 1 day

MSUAH	Upgrade Assistance Service, per hour	Call for Quote
MSUAD	Upgrade Assistance Service, daily rate	Call for Quote

System Health Check Services

The System Health Check service is an audit of installed software and hardware configurations. This service ensures that the configuration of the installation is aligned with Milestone's best practices and ensures optimal performance. Observed deficiencies and system optimization recommendations will be documented in a service report and delivered upon completion of the service.

Minimum service engagement: 1 day

MSHCH	System Health Check Service, per hour	Call for Quote
MSHCD	System Health Check Service, daily rate	Call for Quote

Customized Services

With Customized Service, Milestone's skilled Engineers are available to provide tailored and customer-specific solutions. The expertise of Milestone Engineers is relevant in installation planning, acceptance testing, remote installation support and post-installation audits. All concluded service engagements are fully-documented.

Minimum service engagement: 1 day

| MSCSH | Customized Services, per hour | Call for Quote |
| MSCSD | Customized Services, daily rate | Call for Quote |

System Design Services

The System Design Service is an onsite demo-to-win installation and configuration service. The implementation is executed with test licenses and replicates fully the network, CPU and storage load for the camera count and video feeds specified for the proof of concept.

8) Applies for both M500A and M550A

Terminated Products

Although a Milestone product reaches the Terminated stage, there will still be options for self help support resources. Please refer to our product lifecycle on page 6 for more information.

TRADE-IN CREDIT
As part of Milestone XProtect and described in more detail on page 10, it is under attractive terms possible to trade-in terminated Milestone software products in exchange for a more recent offering.
For quotes on possible trade-ins of older Milestone products please reach out to your local sales support.
Please refer to page 3 for contact details.

XProtect VMS Products

Milestone XProtect Essential

Lifecycle stage: Terminated
Available for: Authorized, Advanced and Premier resellers
Current version: 2016 R2   **Please note that 2016 R2 was the final version of the product.**

SKU ID	Name	MSRP USD	Note
TXPESBL	Trade-in XProtect Essential BL w/2 DL w/o C-Plus	0.00	1
TXPESCL	Trade-in XProtect Essential DL w/o C-Plus	15.00	2

Notes
1) Only applies to XProtect Essential version 2016 R2 or earlier. Can be used to trade-in to corresponding product license for XProtect Express+, XProtect Professional+, XProtect Expert or XProtect Corporate. The two device licenses (XPESCL), that originally were included with the base license, have been extracted and treated as two regular device licenses. Trade-in credit is given for these two device licenses (TXPESCL), which makes up for the credit of the base license.
2) Only applies to XProtect Essential version 2016 R2 or earlier. Can be used to trade-in to corresponding product license for XProtect Express+, XProtect Professional+, XProtect Expert or XProtect Corporate.

XProtect Enterprise

Lifecycle stage: Terminated
Available for: Authorized, Advanced and Premier resellers
Current version: 2016 R2   **Please note that 2016 R2 was the final version of the product.**

TRADE-IN CREDIT		MSRP

TXPEBL	Trade-in XProtect Enterprise BL w/o C-Plus	445.00	1
TXPECL	Trade-in XProtect Enterprise DL w/o C-Plus	60.00	1

NOTES
1) Can be used to trade-in to corresponding product license for XProtect Expert or XProtect Corporate.

Revisions

XProtect Portfolio of Products

As of June 30th, 2022, XProtect Enterprise and Essential have entered the Terminated stage of the product lifecycle and it will only be possible to trade-in these products into higher level active XProtect products.

XProtect Professional and Express have entered the Limited Availability stage of the product lifecycle and it will no longer be possible to purchase new base licenses. These products will be terminated June 30th, 2024.

Please refer to the product lifecycle on page 6 for more details.

As of 2022 R3, XProtect Incident Manager can be purchased as an add-on functionality.

As of January 2023, Milestone Kite™ was added to the Milestone portfolio of products and services.

Husky NVR Portfolio of Products

The Husky X8 has entered the Sustaining stage of the product lifecycle and will no longer be available for new sale through partners.

About Milestone Systems

Milestone Systems is a leading provider of data-driven video technology software in and beyond security that helps the world see how to ensure safety, protect assets, and increase business efficiency. Milestone enables an open platform community that drives collaboration and innovation in the development and use of network video technology, with reliable and scalable solutions that are proven in more than 500,000 customer sites worldwide. Founded in 1998, Milestone is a stand-alone company in the Canon Group. For more information visit: www.milestonesys.com
