

PowerStack Introduction

The PowerStack system is an intelligent, modular, solar pole providing a new way of powering safety, security and smart technologies for your communities and businesses. PowerStack provides a cost-effective platform to supply remote power without the need for trenching, cabling, and utility approvals.

The PowerStack system is designed to your specific application and location. Performance varies depending on solar irradiation at the site location, power requirements of powered devices, and operation and consumption profiles of those devices. Please consult with PowerStack for geographic performance information and for help right-sizing your outdoor power solution. All systems carry a 10yr warranty and are designed with a 5-day back-up for inclement weather.

All PowerStack poles include order numbers in the following format:

APS - M# - #LP4 - #LFP

APS: PowerStack architectural power system; **M#:** pole height; **#SP4:** number of small photovoltaic (PV) solar panels on all 4 sides; **#LP4:** number of large solar panels on all 4 sides; **#LFP:** number of batteries (lithium iron phosphate batteries)

APS	Pole Type	Solar Panels	Energy Storage
APS	M10 = 3 ft pole	1 SP4 = 1 small PV panel, 4 sides	1LFP, 2LFP, 3LFP, 4LFP, 5LFP, 6LFP, 7LFP, 8LFP, 9LFP, 10LFP, 11LFP, 12LFP, 13LFP, 14LFP, 15LFP, 16LFP, 17LFP, 18LFP, 19LFP, 20LFP, 21LFP, 22LFP, 23LFP, 24LFP, 25LFP, 26LFP Lithium iron phosphate batteries
	M20 = 6 ft pole	1 LP4 = 1 large PV panel, 4 sides	
	M30 = 10 ft pole	2 LP4 = 2 large PV panel, 4 sides	
	M50 = 15 ft pole	3 LP4 = 3 large PV panel, 4 sides	
	M60 = 20 ft pole	4 LP4 = 4 large PV panels, 4 sides	
	M80 = 25 ft pole	5 LP4 = 5 large PV panels, 4 sides

Concrete free foundations

PowerStack systems can be mounted on any engineered footing. For a low-carbon, quick-to-install option, PowerStack offers a concrete-free foundation to save further time and money on pole installations. An engineer is required to specify the appropriate footing for the soil type at the site (a geotechnical survey is strongly recommended). PowerStack can help you specify the right system for your needs.
